ABSTRACTED-PUB-NO: US 6125374A

BASIC-ABSTRACT:

NOVELTY - The method has a database containing predesigned graphic templates which include brand name, and product name, providing a drawing program, a template selector, user inputting information such as dimensions of the package and/or label and selecting the type of language of the graphics to the template selector, automatically selecting a predesigned graphic template from the database, and launching automatically selected graphic templates into the drawing program.

USE - For applying graphics to packaging and/or labels and for aiding the designer in selecting the correct, predesigned graphics for panels on a package.

ADVANTAGE - Automatically configure labels, graphics, printed matter, etc. for packages based upon a user's input of the dimensions for the package.

DESCRIPTION OF DRAWING(S) - The figure shows an

illustration of a completed
package ready for output.

Output package 74
